

Collector Vehicle – New Product Comparison

Simpler quoting and more sophisticated rating opens collector car business to most agents.

Offering special coverage for classic cars is a great complement to a standard auto business. And now it is easier than ever with a streamlined process that walks you through a quote, and that makes putting a value on modifications simple. This updated product covers most anything on four wheels that is collectible. Classic motorcycles can be written in the new Motorsports product.

Streamlined process gets your quote done fast

- Key questions that may prevent a risk from being accepted are asked up-front to save you the time of creating a full quote.
- Customer and vehicle data is “pre-filled” using information already entered into the system and from other sources. This eliminates duplication and streamlines the process.
- Integrated C.L.U.E. reports determine the number of claims and any at-fault accidents, and import the details saving you time.
